

Donating Seeds

Follow these guidelines to make your seed donation to the Seed Library!

- Make sure your seeds are fully processed and clean (only the seed and not plant material) before donating.
- Include as much information as possible about your donation. Use our donation form to see what kind of information would be helpful to include. You can find it on our seed library webpage using the URL below.
- If you are donating opened packages of commercial seed, please seal tightly and make sure the original package is included, if possible.
- Only donate seed from healthy plants!
- Bring your donations to the circulation desk, where a staff member will take your donations to be processed. You will be asked to fill out the donation form with as much information about your donation as you can give. Go to our webpage (using the URL or QR code listed below) to print a copy to fill out and have ready!

Visit us at councilbluffslibrary.org/things/seed-library for more information!
