### Iowa Department of Natural Resources

Notice is hereby given that the Iowa Department of Natural Resources (IDNR) is reviewing a Prevention of Significant Deterioration (PSD) permit application submitted by Bunge North America, Inc., located at 19560 Bunge Ave, Council Bluffs, Iowa 51503.

The Department assigned Project Number 26-038 to this application. The project requests an amendment of PSD Construction Permit No. 97-A-383-P2 (Soybean Oil Extraction, EP-E1) to reflect the proposed replacement of two existing Desolventer-Toaster (DT) units that have reached the end of their useful life. These will be replaced with a single, high-capacity DT unit that is functionally equivalent and designed to process combined flows. The Best Available Control Technology (BACT) limits will not change.

Based on the review of the information provided by the applicant, IDNR has determined that there is no “*significant emissions*” increase due to the requested changes. Additionally, the proposed action will not have a significant impact on air quality, National Ambient Air Quality Standards, or PSD Increment.
